Forging Program Success Workshop

The two-day Forging Program Success Workshop concentrates on the best practices for program execution and advocacy including building relationships with all program stakeholders: Users/Warfighters, Congress, Department of Defense (DOD) staff, the Program Executive Officer (PEO), service laboratories, Federally Funded Research and Development centers (FFRDC's), contractors, related programs, competition, system commands and their field activities.

This seminar is based on extensive research of more than 150 references, feedback from training seminars, strategic marketing sessions and the experience and skills of ASHER's facilitators who have excelled in program management.

THIS SEMINAR IS AVAILABLE TO:

- Program Management Offices
- System Commands and their field activities
- Defense Contractors
